MENTORSHIP

MENTORSHIP

Assign an appropriate mentor to assist young social entrepreneurs in organisational capacity building from initial idea through to impact creation

Young Social Innovations Programme YSIP Egypt

Social entrepreneurship is the work of a **social entrepreneur**. A social entrepreneur is someone who recognizes a social problem and uses entrepreneurial principles to organize, create, and manage a venture to make social change. Whereas a business entrepreneur typically measures performance in profit and return, a social entrepreneur focuses on creating social capital. Thus, the main aim of social entrepreneurship is to further social and environmental goals. However, whilst social entrepreneurs are most commonly associated with the voluntary and not-for-profit sectors, this need not necessarily be incompatible with making a profit.
