التاريخ: ٦ مارس ٢٠٢٣

The 5th Edition Cyber Security Innovation Series is set to take place on 6-7 March 2023 in Intercontinental Citystars Cairo Egypt. Cyber Security Innovation Series is supported by The National Telecom Regulatory Authority (NTRA) and Information Technology Industry Development Agency (ITIDA). The summit aims to bring together all stakeholders under one platform to accelerate our innovation journey in a sustainable and safe way, address new risks, reframe security practices, and rethink technology, as well as preparing to respond to new threats.

At the CSIS 2023, attendees will have the opportunity to understand the real-time implementation of policies and procedures under the new Egypt ICT 2030 Strategy. They will also discuss the steps organizations need to take to remain resilient and adapt to the ever-changing nature of cyber-attacks. Additionally, they will brainstorm the importance of implementing the right security tools across the entire enterprise.

The summit will also focus on strengthening cyber efficiencies and reducing security challenges by ensuring that security tools are adaptive to keep up with the ever-changing requirements. Attendees will learn how to put together proactive plans to identify, tackle and ultimately minimize possible breaches. Furthermore, they will successfully implement advanced technologies of 2023 to enhance security measures.

The CSIS 2023 promises to be a comprehensive and insightful summit that will address the latest challenges and opportunities in the cybersecurity and innovation space. With experts from various fields, attendees will gain invaluable knowledge and network with industry peers.

Notably, the event will have participation from renowned companies such as Huawei, Kaspersky, and many more. The event will be inaugurated by Dr. Ahmed Abdel-Hafez, Vice President for Cyber Security Affair, NTRA. CSIS Egypt speakers will include Eng. Hazem Nabil

Vice President for Electronic Transactions Security ITIDA, Dr. Samir Gaber, Head of Department of Cyber Attacks Monitoring and Early Warning Systems – EGCERT, NTRA from Eng. Abeer Khedr, Head of Cybersecurity – National Bank of Egypt, George Atef, Chief Information Security Officer, EMAAR Misr, Hisham Mohamed Aly, Chief Information Security Officer, Emirates NBD Egypt, Ahmad Ashraf Hussein, Head of Presales, Egypt and Africa, Kaspersky, Ahmed Osama, Chief Information Security Officer, MCDR, Mohamed Hegazy Chief Information Security Officer, MDP Digital Payment Company, Eman Mohamed, Chief Information Security Officer, Fawry, Mohamed Nabil Mostafa, Global Chief Information Security Officer, Egyptian Arab Land Bank and many more.
